1. Opis funkcionalnosti

Korišćeni jezici	• HTML • CSS • JS • PHP
Korišćeni HTML šabloni (framework-ci)	• Korišćen je template • Nije korišćen frontend framework
Korišćene biblioteke i njihovi url-ovi odakle ste ih preuzeli	• Bootstrap Select • SmoothScroll • Wow • jQuery Nav, Parallax, Backstretch • Animate • Font Awesome • Material Icons
Korišćene biblioteke iz framework-a	• Bootstrap • jQuery
Korišćene php biblioteke van fremework-a	• Telescope
Koje funkcionalnosti su realizove putem AJAX-a	• Dodavanje komentara • Izmena komentara • Brisanje komentara • Brisanje u admin panelu
Navesti lokacije gde je napisan AJAX kod (fajlovi ili delovi html stranice)	• public/js/ajax.js • public/admin_assets/ajax_admin.js
Navesti lokacije gde je napisan sopstveni javaScript kod (fajlovi ili delovi html stranice)	• public/js/ajax.js • public/admin_assets/ajax_admin.js
URL sajta/aplikacije	• http://energyfitness2019.000webhostapp.com/
Pristupni parametri	• Parametri poslati na e-mail

Sajt ima sledeće funkcionalnosti:

- **Admin panel** – upravljanje podacima iz baze na sajtu, samo za korisnike sa administratorskim pravima.
- **Kontakt formu –** Posetioci sajta mogu poslati mail glavnom administratoru.
- **Registraciju** – Nakon registracije, korisniku se šalje aktivacioni mail. Ako ne potvrdi, ne može pristupiti sadržaju za autorizovane korisnike.
- **Logovanje i zaštita sesijama –** Aktivan korisnik se može ulogovati kako bi pristupio sadržaju za autorizovane korisnike.
- **Postove –** Samo administrator može postaviti post preko admin panela.
- **Komentare –** Samo ulogovani korisnici mogu komentarisati, izmeniti i obrisati svoj komentar, administratori mogu da brišu sve, rađeno preko Ajax-a.

- **Straničenje –** Dinamički prikaz po 4 posta na početnoj stranici, straničenje u admin panelu.
- **Galeriju –** odrađena u vidu trenera i slider-a.
- **Responsive –** celokupan sadržaj sajta je rađen u Bootstrapu, prilagođen prikaz za mobilne uređaje.
- **Intuitivan GUI –** posebna pažnja na UX (automatski refresh stranica, poruke, upozorenja pre brisanja, detaljni log-ovi), brojne modifikacije template-a, manje modifikacije biblioteka.

- **Telescope –** alatka za lakše praćenje aktivnosti na sajtu.

Hosting blokira PUT, PATCH i DELETE zahteve preko Ajax-a ukoliko niste premium i ne podržava slanje e-mailova preko SMTP-a, pa je korišćena funkcija mail().

Aktivacija naloga putem e-mail linka ne radi, jer hosting neće da šalje e-mail na adresu dobijenu preko promenljive.
